ABOUT US

Lumeva, a veteran-owned, mission-driven organization founded in 2024, delivers innovative solutions to federal, state, and local government agencies. With expertise in Systems Engineering and Technical Assistance (SETA), cybersecurity, program management, and policy analysis, Lumeva addresses mission-critical challenges with precision and excellence. Backed by advanced certifications and a team holding Top Secret/SCI clearance, we ensure secure, efficient execution of sensitive projects. Our commitment to measurable results, innovation, and sustainable growth positions Lumeva as a trusted partner for government and defense agencies nationwide.

MISSION

To empower government and defense agencies with innovative, secure, and efficient solutions that drive mission success while fostering trust, collaboration, and sustainable development.

VISION

To be the leading provider of tailored technical and strategic services for government and defense sectors, setting a benchmark for excellence, innovation, and integrity in the industry.

CORE COMPETENCIES

- **System Engineering and Technical Assistance (SETA):** Tailored support to optimize operational performance and enhance mission outcomes.
- **Cybersecurity and Risk Mitigation:** Robust strategies to protect critical systems and mitigate emerging threats.
- **Program and Project Management:** Expertise in managing multi-million-dollar initiatives aligned with client objectives.
- **Strategic Policy Analysis and Recommendations:** Insightful guidance to navigate complex regulatory and operational landscapes.
- **Continuity of Operations Planning (COOP):** Comprehensive plans to ensure operational resilience during disruptions.
- **Advanced Data Analytics and Visualization:** Using SQL and Tableau to deliver insights that drive decisions.
- **Federal and State Contract Management:** Expertise in navigating complex procurement processes with certifications like CFCM.
